GAMES ON THE GO

These games will keep you entertained when you're on the move – in a car, on a train or somewhere else...

ADVENTURE WORD GAME

Play this imagination game with as many people as you like.

Take turns to add five words at a time, and invent an exciting adventure together.

CAR PARTS

This is a game for two people. One person thinks of a word, and the other person has to try to identify it, before the first person has drawn a whole car.

1. Person 1 thinks of a word (it can be anything) and writes a short line for each letter on some paper:

2. Person 2 guesses a letter that might be in the word.

3. If it is in the word, Person 1 writes it in.

If not, they draw the first part of a car, then write the letter and draw a line through it.

4. They both continue in the same way, guessing letters, and filling in letters or adding car parts, like this:

Person 2 can guess a whole word instead of a letter, but if it's wrong, Person 1 adds another car part. Person 2 wins if the word is complete before the car is finished. Person 1 wins if the car is finished first.

You can play the game in this space.

TRAIN TRIP

In this memory game, take turns to add something to the list, and see how many things you can remember in a row:

If you're on a plane, you could play this with things that you might find on a plane instead.

AMERICA, BRAZIL, CROATIA...

In this game, take turns to think of a country that begins with each letter of the alphabet. Start with the letter A, then B and so on:

Some letters may be too hard, so before you start, agree which ones you're going to leave out.

You can also play this game with kinds of animals, kinds of food, or even with no theme at all.

CAN'T SEE IT ANYWHERE

In this imagination game, only say things that you CAN'T see...

1. One person starts by thinking of something that they can't see. They say "I can't see..." then give two clues: the kind of thing it is (in this example, an animal) and its first letter (T):

2. The other person tries to guess what it is they're thinking of:

3. If they guess correctly, it's their turn to think of something new. If they can't guess it, the first person has another turn.
